PROFESSIONAL SUMMARY

MCA student seeking an entry-level **Full-Stack / Web Developer** role. Skilled in Java, Next.js, SQL, and Electron.js, with hands-on experience building scalable web applications, responsive interfaces, and REST-based backends.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, C, C++, PHP, HTML5, CSS3

Frameworks & Frontend: Next.js, React.js, Electron.js, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, Java Servlets, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Tools & Concepts: Git, GitHub, VS Code, Vercel, OOP, CRUD Operations, System Design

PROJECTS

Doctor Appointment Booking System | Next.js, Java, PostgreSQL

- Architected a full-stack web application for seamless doctor appointment scheduling and patient management.
- Designed dynamic interface workflows for three user roles: patients, doctors, and system administrators.
- Built the frontend in Next.js with a Java backend and PostgreSQL database for structured, reliable data handling.

Personal Portfolio Website | React.js, HTML, CSS

- Built an interactive, responsive portfolio showcasing personal projects, technical skills, and certifications.
- Ensured a consistent layout across desktop and mobile screens using responsive design principles.

Tourism Experience Platform | React.js, Bootstrap, CSS

- Created an interactive web platform featuring dynamic image galleries and destination showcases.
- Applied Bootstrap and custom CSS to deliver responsive destination layouts across screen sizes.

Task Management (Todo) CRUD App | JavaScript, HTML, CSS, LocalStorage

- Developed a lightweight web app with complete CRUD capabilities to create, view, update, and delete tasks.
- Used browser LocalStorage for client-side persistence so tasks are retained between sessions

INTERNSHIPS

Web Development Intern | Cozio

- Built responsive web pages using HTML, CSS, and Bootstrap. Fixed UI bugs and improved cross-browser compatibility and user experience.

Java Programming Intern | Internship Program

- Developed, debugged, and optimized Core Java application modules using Object-Oriented Programming principles.
- Applied exception handling to build reliable, fault-tolerant application logic.
- Used the Java Collections Framework to implement efficient data handling.

EDUCATION

Master of Computer Applications (MCA) – Karpagam Academy of Higher Education**CGPA: 8.12**

Bachelor of Computer Applications (BCA) – PSGR Krishnammal College for Women**Score: 6.7%**

Class XII – Sathya Saai Matric Higher Secondary School, Pasar (TN Board, 2022)**80.3%**

Class X – Sathya Saai Matric Higher Secondary School, Pasar (TN Board, 2020)**92.6%**

CERTIFICATIONS

- **Full Stack Development** – Lernx (HTML, CSS, JS, React, Node.js, MongoDB)
- **Becoming a Security Engineer Masterclass** – NXT Wave CCBP 4.0
- **Enhancing Soft Skills & Personality** – NPTEL / IIT Kanpur

LANGUAGES

- Tamil (Native)
- English (Proficient)
